

Community Energy Warwickshire Fund

Community Energy Warwickshire is a volunteer-run social enterprise set up in 2010 with the aims of:

- developing, installing and operating renewable energy projects
- encouraging the sustainable use of energy and reductions in carbon emissions through the provision of advice on energy efficiency and the supply of energy-efficient products and services
- promoting public awareness of environmental and related issues and supporting educational initiatives related to renewable energy, energy efficiency and sustainability

Community Energy Warwickshire has solar panel installations at three NHS hospitals in south Warwickshire and is exploring potential projects at schools and other community buildings across the county. For more information, see www.cew.coop

The **Community Energy Warwickshire Fund** is a grant programme for Warwickshire, Solihull and Coventry enabling voluntary and community groups to apply for funding for:

- insulation and other energy efficiency improvements to community buildings
- training in ways to improve energy efficiency through technical improvements to building fabric or energy use advice to building users
- running events, workshops or surgeries where people can get advice on ways to improve energy efficiency and reduce energy use
- provision of one-to-one support to help vulnerable people to live in warm, energy-efficient homes

The maximum grant available is £2000

There shall be no absolute block on multiple grants to the same applicant in a single year provided that:

- follow-on applications would succeed on their own merits using the same assessment criteria as for first-time applications.
- in the event of competition for funds, preference should be given to first-time applicants.
